SUMMARY

A Computer Science graduate with 4+ years of specialized experience in Frontend Development, creating user-centric applications using modern JavaScript frameworks like React, React Native, Next.js, and SvelteKit. Expert in TypeScript, Tailwind CSS, and PWA development, delivering seamless cross-platform experiences. Developed 16+ successful projects including mobile apps and automation solutions, improving user engagement by 20% through optimized interfaces. Additionally skilled as an N8N Agent Architect, creating intelligent workflow automation systems that bridge frontend applications with backend services.

TECHNICAL SKILLS

NextJs

ReactJS

React Native

Sveltekit

Typescript

PocketBase

CSS

Figma

Git

Javascript

Redux Toolkit

Context API

PERSONAL PROJECTS

Fitness App (11 / 2024 - 03 / 2025)

- Built a cross-platform fitness app using React Native, ensuring smooth performance on both iOS and Android.
- Implemented React Navigation for seamless and intuitive user flow across different screens.
- Utilized Redux Toolkit for efficient state management, handling user authentication, workout progress, and preferences.
- Integrated React Native Gesture Handler for smooth interactions and animations.
- Optimized app performance using useMemo and useCallback to prevent unnecessary re-renders.
- Integrated real-time workout tracking and push notifications for workout reminders using Firebase Cloud Messaging (FCM).

Authentic Influencer (07 / 2024 - 11 / 2024)

- Developed a React Native platform to connect influencers with brands for seamless collaborations.
- Implemented Redux Toolkit for state management, ensuring a scalable and responsive user experience.
- Integrated React Navigation with deep linking for smooth user onboarding and authentication.
- Designed and optimized custom UI components using Tailwind CSS (NativeWind) for a visually appealing interface.
- Implemented secure authentication and token-based authorization to protect user data.

Korra Mobile App (05 / 2024 - 08 / 2024)

- Built a React Native app with NativeWind for e-wallets, AI chatbot, live chat, and automated responses.
- Integrated Firebase for authentication and database to handle user accounts and transactions securely.
- Implemented server and client-side rendering where required.

WORK EXPERIENCE

Senior Mobile App/Web Developer

Bitrupt | Dover, Delaware

12 / 2024 - Present

- Developed high-performance mobile applications using React Native to deliver a seamless user experience.
- Optimized application speed by 30% through efficient coding practices and performance enhancements.
- Successfully implemented Redux Toolkit for state management, ensuring scalability and maintainability.
- Designed and set up a secure authentication flow, integrating token and refresh token-based navigation.
- Led a team of junior developers, providing mentorship and enforcing best coding practices.

Senior Front End Developer

7G Fuse | Abu Dhabi, UAE

06 / 2024 - 01/2025

- Developed UI components using Tailwind CSS, TypeScript, ShadCN, and NextUI for a seamless user interface.
- Integrated REST and Fast APIs to enable dynamic data interaction within the web app.
- Ensured cross-platform responsiveness and optimized web performance for better user engagement.
- Built a responsive, progressive web app using modern tech stacks, enhancing user experience across devices.
- Led the development of a network-integrated portal system, improving functionality and performance.

Front End Developer

Vectracom Pvt Ltd | Karachi, Pakistan

07 / 2023 - 07 / 2024

- Successfully started to transition to full-stack development using Sveltekit, delivering projects for renowned clients.
- Boosted data access time by 30% by implementing efficient CRUD operations in Sveltekit.
- Ensured data security and integrity through meticulous handling of server-side and client-side rendering.
- Summary: Enhanced user engagement by 20% through the development of responsive and progressive websites using ReactJS and SvelteKit. Collaborated closely with design teams, editing designs directly in Figma to facilitate seamless integration and ensure the approval and successful deployment of three projects for clients such as Zong, Ufone, and Jazz.

PERSONAL PROJECTS

Crime Door Mobile App (04 / 2024 - 07 / 2024)

- Built a React Native app using Expo 51 to track sex offenders and provide real-time updates.
- Implemented a feature for users to report offenders and mark their locations.
- Used Firebase for authentication and database management, ensuring secure and reliable data storage.

Sugar Balance PWA (05 / 2024 - 06 / 2024)

- Developed a basic website for diabetes patients using Next.js.
- Enabled users to track their blood sugar levels and monitor sugar intake.
- Implemented server and client-side rendering where required.

Moves Mobile App (03 / 2024 - 06 / 2024)

- Developed a freelance mobile app "Moves" where users play a probability game to boost signals and earn rewards.
- Utilized React Native for app development, Redux for state management, and Firebase for backend services.

Telecommunication PWA (10 / 2023 - 02 / 2024)

- Developed a Progressive Web App (PWA) for Jazz which is a prominent telecommunication client in Pakistan.
- Integrated Pocketbase as the database backend for seamless data management and retrieval.
- Utilized **SvelteKit** for **server** and **client-side** rendering.

Translation Application (01 / 2023 - 05 / 2023)

- Conceptualized and wireframed UI/UX designs using Figma, ensuring optimal user interaction and visual appeal.
- Engineered a mobile application using React Native to bring the Figma designs to life, enabling users to scan QR codes and access translated manuals in their preferred language.

Escrow Bridge (09 / 2022 - 07 / 2023)

- Establishing a seamless connection between e-commerce transactions by introducing escrow payments, thereby mitigating fraud risks.
- My choice of framework was React.js in this project.
- Implemented secure transactions via smart contracts on the Blockchain.

WORK EXPERIENCE

Lead Front End Developer

WordFibre Ltd | Stirling, Scotland

12 / 2022 - 07 / 2023

- Effectively spearheaded cross-disciplinary teams to achieve the timely and budget-conscious delivery of intricate technical initiatives.
- Applied CSS and developed proficiency in creating responsive design for optimal user experience.
- Team collaboration, contributing to an efficient work pipeline.
- Implemented Git for version control which led to a notable 30% acceleration in development speed.

CERTIFICATES

- Web Programming with ReactJS (01/2022 - 02/2022)
- Cypress Automation Testing (14-01-2022 - 23/03/2022)
- Cloud Solution Architecture Training [AWS] - Hazza Institute of Technology (16-03-2023 - 20/09/2023)
